

Summary

Detail-oriented and organized Computer Science undergraduate with strong computer proficiency and hands-on experience in developing software applications, managing digital information, and maintaining structured records. Skilled in handling data accurately, working with documentation, and using various computer applications efficiently. A quick learner with excellent typing, attention to detail, time management, and problem-solving abilities, seeking an opportunity to contribute effectively in a Data Entry role while ensuring accuracy and productivity.

Work Experience

MERN Stack Developer Intern

RecogX Init

Jun 2026 - Jul 2026

- Developed responsive web applications using the MERN stack.
- Managed application data and integrated backend APIs.
- Maintained project documentation and collaborated with development teams.
- Ensured accuracy while handling application records and databases.

Full Stack Developer Intern

Cognifyz Technologies

Jun 2026 - Jul 2026

- Successfully completed all assigned internship tasks across multiple levels.
- Built responsive web applications with modern UI/UX.
- Worked on structured data management and software documentation.
- Delivered projects within deadlines while maintaining high-quality standards.

Jan 1970 - Present

Education

Bachelor of Technology (B.Tech)

Institute of Technical Education and Research (ITER), Siksha 'O' Anusandhan(SOA)

2024- 2028 - UnderGraduate

Responsibility

Projects

Personal Portfolio Website

Created a professional portfolio showcasing technical skills, projects, internships, achievements, and contact information with a responsive design and modern user interface.

GSDR Concierge Management System

Developed a complete resort concierge platform with role-based access.

Guest Dashboard

- Weather Updates
- Guest Information
- Room Details
- Food Menu
- Room Service
- Emergency Contacts

Reception Dashboard

- Live Guest Requests
- Staff Coordination
- Request Management

Kitchen Dashboard

- Live Food Orders
- Order Tracking
- Kitchen Workflow Management

PDF Studio Pro

Built a comprehensive PDF management platform supporting:

- PDF Merge
- PDF Split
- PDF Compression
- PDF Rotation
- PDF Editing
- Image to PDF Conversion
- Document to PDF Conversion
- Multiple PDF Utilities

Cognifyz Internship Portfolio

Designed and developed an interactive portfolio demonstrating all six internship tasks with responsive layouts, modern animations, and an intuitive user experience.

Authentication UI Template Collection

Designed and developed multiple reusable authentication interfaces, including:

- Login Pages
- Registration Pages
- Forgot Password Pages
- Reset Password Pages
- OTP Verification Screens
- Email Verification Pages
- Responsive Authentication Templates

Focused on clean layouts, user-friendly navigation, secure authentication flows, and modern UI/UX principles.

Student Productivity Suite

Developed an all-in-one productivity platform featuring:

- Expense Tracker
- CGPA Calculator
- Attendance Tracker
- Secure File Storage
- Student Dashboard
- Digital Record Management

Excel Data Management & Record Keeping System

Designed and developed a comprehensive Microsoft Excel-based data management system to strengthen my spreadsheet, documentation, and data handling skills. I took up this project during my free time to practically apply and improve my knowledge of Excel rather than letting those skills go unused. I have built a structured Excel workbook for managing and organizing large amounts of information efficiently. The project focused on improving data accuracy, record maintenance, spreadsheet organization, and reporting. I created this project independently during my free time to apply my data entry, spreadsheet management, and documentation skills in a practical way while gaining deeper proficiency in Microsoft Excel.

Achievements

Achievements

- Completed 2 professional software development internships.
- Developed 7 practical web-based projects and UI templates.
- Experienced in managing digital records and structured information.
- Strong attention to detail with excellent organizational skills.
- Comfortable working with spreadsheets, documents, databases, and online information systems.

Skills

- C
- C++
- Java
- Python
- JavaScript
- HTML5
- CSS3
- Tailwind
- CSS
- Django
- MERN Stack
- REST APIs
- Responsive Web Design
- MySQL
- MongoDB
- SQLite
- Database Management
- Data Entry & Record Management
- Data Validation & Verification
- Data Organization
- Data Accuracy and Quality Control
- Git
- GitHub
- VS Code
- Fast Typing & Computer
- Proficiency Attention to Detail
- Problem Solving
- Time Management
- Team Collaboration
- Communication Skills
- Multitasking Adaptability
- Quick Learner
